

Newly elected AWS officers are: (left to right) Karen Espe, President; Ann Welch, Secretary; Susan Bankhead, Vice-

President of Activities; and Julie Polly, Vice-President of Housing. Campus coeds set a new record in voting, 1,579 girls.

## Record Vote Set In AWS Elections

Two-day snowstorm, a record King voter turnout, and Karen Espe squeaked by Linda Johnson to win the AWS presidential race 733 to 771, a margin of 38 votes.

HEAD ALL the way in the president of housing race

was Julie Polly who led Sandy Howell 1,055 to 489.

Susan Bankhead topped Donna Sheffield a comfortable 915 to 611 to take the activities vice-presidential post and Ann Welch became secretary over Martha Marie Gunther 813 to 735, the second

closest race in the campaign. AWS ELECTIONS, held for the first time separately from AMS elections, brought out 1,579 girls despite sporadic blizzards both days. Figures on women voting the past two years were 1,150 for 1963, and 1,275—the previous record.

"I don't know what to say," said Polls Chairman Mary Ann Thrilled of the new record. "I'm shocked and happy—how trite!"

## Belli Fears For Ruby's Life Either Suicide Or Murder

DALLAS, (UPI) — Chief defense counsel Melvin Belli said Sunday he is concerned that Jack Ruby might either be killed in jail or commit suicide before appeals of his death sentence can be made.

## Chief Resigns Post; New Editor Named

Mary Lynn Forsberg, managing editor of the Daily Universe, has been appointed acting editor for an indefinite term, according to Dr. Oliver R. Smith, chairman of the Board of Student Publications.

## FORMER EDITOR Bruce L. Olsen resigned to participate in the ASBYU Primary Election.

In accepting his resignation, effective Thursday, the board gave him a unanimous vote of commendation for the "outstanding" job he and the staff have done with this year's Universe.

MRS. FORSBERG, a junior in communications from Provo, was news editor of last year's Universe.

Forsberg

IN AN EXCLUSIVE interview with UPI, Belli said he is afraid Ruby "might be put in a hole some place and killed by a guy with a stick."

Belli said he will journey to Austin, Tex., Monday to take the case to the criminal court of appeals.

"YES SIR I do hold concern for his life," Belli said. "That would be the way to prevent an appeal... another way for Dallas to dispose of him."

"I'm going to have a talk with Sheriff (Bill) Decker," Belli said. "Ruby should have treatment right now. He might commit suicide."

A JURY OF eight men and four women deliberated only 2 hours and 24 minutes Saturday before finding Ruby guilty of murdering Lee Harvey Oswald, the accused assassin of President Kennedy.

As Judge Joe B. Brown read the verdict, defense attorneys Belli and Vice H. Tinsell of Jasper, Tex., blazed in wrath and shouted "Appeal! appeal!"

## Seclusion Traded For Campus Visit

Philosopher-author-longshoreman Eric Hoffer emerging from 20 years of seclusion in San Francisco for two days on BYU's campus never finished grade school.

The 62-year-old dock worker, scheduled for Wednesday and Thursday by the Academic Emphasis Committee, fell and injured his head when he was seven years old. This accident left him completely blind and although he later regained his sight, he never finished grade school.

AFTER THE DEATH of his father in 1920, he crossed the continent from New York to Los Angeles arriving with \$300. He landed on Skid Row the same year.

"It was then," he says, "that I first began to live."

For the next 21 years, he hunched around the state picking fruit, swinging sledge in railroad gangs, lumberjacking and prospecting.

HE DESCRIBES HIMSELF as "not really a scholar but a working longshoreman who stumbled into thinking and writing."

His correspondence with Deran Hunter, Chairman of the Academic Emphasis Committee, is all hand-written in blue ink on lined notebook paper. The Clark Library has requested permission from Mr. Hunter to place copies of it in its stacks.

"If you have misgivings about the invitation I want to reinforce them," he wrote. "For an Academic Emphasis affair, you have picked someone who is utterly unacademic and, indeed, has never been to school."

MR. HOFFER WILL discuss the "Philosophical Implications of Automation" Thursday at 8 p.m. in 154 Knight Bldg. In a panel covered live on radio and TV. With him will be Dr. Hugh Nibley, graduate studies religion, Dr. Philip Daniels, psychology, Cheryl Lynn, Richard Pagett and Bruce McKiff of the Academic Emphasis Committee.

Wednesday he will speak in the multipurpose area of the Smith Family Living Center at 8:15 p.m. on "The Time of the Juvenile."

Both sessions will be open for questions from the floor.

## Campus and Comment

### • Neglected Etiquette?

I am rather disturbed that so many of our younger students should feel so keenly the need to leave the forum and devotional assemblies before they have been properly concluded. Contrary to what might readily be assumed, I am not at all convinced that rudeness should be blamed for this abnormal behavior. Some thing much more compelling must surely lie at the heart of the problem.

It occurs to me that children usually have to leave public gatherings for one of three reasons: (1) Their parents may simply have neglected etiquette and discipline, the child's bone and muscle structure may make it impossible for him to sit still for as long as an hour, or—and this is the possibility that most alarms me—he has to go to the restroom.

Assuming that a college-age child has been taught fairly well and has matured sufficiently, physically, I submit that it is disconcerting to discover that

bladder control—a function thought by many experts on child development to be mastered by most children somewhere around age three, or six or seven at the latest—has yet to be achieved by a significant number of college freshmen (this latter assumption may, however, reflect mere cowardice on my part; yet I refuse to believe that children older than freshmen could still be having the problem).

Perhaps I should take comfort in the suggestion by a physician friend of mine that the problem may be owing to a malfunction of the urinary organs and not, as I supposed, to a prolonged state of infancy. Still, there is something vaguely disquieting about even this hypothesis, seeming, as it does, to call in question the physical fitness of American youth.

I should be highly gratified if I could help a few of our students by setting explanation for this, to me, embarrassing problem.

Brian S. Best

## Cougar Mentor to Help Pick All-Star Team

Basketball coach Stan Watts will leave for Kansas City this week where he will participate in the selection of players for the annual East-West basketball game.

WATTS, A MEMBER of the board of directors of the National Association of Basketball Coaches, will join seven other coaches in the selection of 20 players for the all-star contest in Kansas City, March 22. All of the contestants will automatically qualify for the trials held for March 20-21 in Lexington, Ky.

OTHER MEMBERS of the selection board are: Henry Iba, Oklahoma State; Alvin Julian, Portsmouth; Adolph Rupp, Kentucky; John Erickson, Wisconsin; D. (Doc) Hayes, Southern Methodist; Ron Carnevale, Navy; and Slat's Gill, Oregon State.

last Saturday. No official scores were kept.

THE COUGARS scored their second impressive win of the year, sweeping all places in four events. These events were: the 440 yard dash; 880 yard run; the two mile run; and the high jump. Although Coach Robinson's crew dominated the meet, several of the team's members had poor days due mainly to the break in training that resulted when the state basketball tournament was held in the fieldhouse.

HOWEVER, Two performers showed no effect of limited training facilities. Roger Anderson, who broke the fieldhouse shot-put record only a week ago, outdid himself by heaving the shot 54' 1 3/4" to establish a new mark.

Emmett Smith, the team's top broad jumper, rewrote the fieldhouse record in the broad jump event with a jump of 24' 6". The old record was 24' 3 1/2". Smith turned in one of the most consistent indoor jumping exhibitions ever seen at BYU.

Ray Barrus copped first place in the mile run, but was pressed hard by his younger brother John Barrus, who is a freshman at Utah State.

Ron Morgan finished strong to be an easy winner in the 2 mile run. He was followed by teammate Larry Winward and Darryl Boushall. Other performers who showed to good advantage were: Ron Haden with a high jump of 6' 6", followed by Neil Roberts at 6' 4", sprinters Bob Tobler, Tim Russell, and hurdler Mike Douglas.

## Special Interest Program Aired By KBYU-FM

An unusual concert series debuts in Central Utah this week on KBYU-FM. In keeping with the international sounds that characterize the station, the new program, "Image of Chile," is a study-in-depth of Chilean culture as presented through its outstanding composers and musicians.

The first of a series of seven 90-minute concerts will be aired on KBYU-FM Tuesday at 8 p.m. The complete series, according to Program Director Gary Allen, will be especially meaningful to music majors and faculty of the Music Department.

The Alliance for Progress Information Team of the Pan American Union is collaborating with the Embassy of Chile and the Interregional Broadcasting System in the production of "Image of Chile."

The "Image of Chile" series is the legacy of the late President John F. Kennedy. When, on March 13, 1961, he proposed that the American Republics undertake the Alliance for Progress as a great cooperative effort in economic and social development in the Americas, he emphasized that the program has a great cultural and spiritual aspect.

The Government of Chile was the first to respond to the President's invitation and the result was "Image of Chile." The programs are entirely financed by voluntary contributions from private interests, both U.S. and Chilean, in Chile.

Because the "Image of Chile" is so closely linked with the Alliance for Progress, the series will carry commentaries on aspects of the Alliance by leading U.S. and Latin American figures.
